### **Computer arts collection. Part 3, Illustration**

Mozart certainly can't hurt you, and you might even enjoy it if you give it a try, but you won't get any smarter. Doty and Glick argue that at its most basic level a theory specifies a consistent relationship between independent and dependent variables; at more complex levels, a theory must satisfy more advanced criteria, such as being decomposable into constructs or ideal types often first order and second orderspecifying the relationship among these constructs, and enabling those relationships to be tested or falsified.

### **Scared to Have Kids**

This is a month in which we could finally take a moment to witness and discern where we are in our ascension journey. The plot is rich, with twists and red herrings throughout that leave you thinking the whole case is on the cusp of being wrapped up - only for another announcement to be made by another character which throws the team, and indeed the plot, out of balance .
