I love these characters, I love these situations, but it feels a little safe...

## **The missing day: Only 24 hours of life remaining**

Human biology needs stress-not the sort of stress that damages muscle, gets us eaten by a bear, or degrades our physiques, but the sort of environmental and physical oscillations that invigorate our nervous systems. I have thought about it every night, And this is where I will always be In different places where I rest my mind, On the road that doesn't end And when I'm waking it all remains.
